CAPT QUINCY
YNS2 SALENNO

0600 18 June - 0600 19 June

44. SECTION III/2 - CHUONG - HANA ON U.S. B-52 BOMB (SECRET)

The B-52 bombers are of the U.S. Strategic Air Command. It was the first time that the U.S. used such bombers against the South Vietnam liberated area...

(FBIS 107, Peking ACNA, 18 Jun 65) (UO)

45.

Hanoi. Thong Nhat electric power plant. 10 May. The U.S. imperialists are losing in the south so they have escalated the war to the north. We are peace loving in our socialist world, but there is only one Vietnam and we are all Vietnamese so we cannot sit by idly and watch our people suffering in the south. We will share the responsibility, endurance and hardship in order to destroy the American pirates and their henchmen. If you could see with your own eyes how the construction achievements of our people have been destroyed you would consider the U.S. imperialists as our cruellest enemy. They cannot live in the same world with the Vietnamese people. I have signed the three readiness and when the Party asks I will be on the move immediately. Even if I have to sacrifice my life I would feel honored to die for our people and country. We hear that the [redacted] due to the suggestion of the U.S. imperialist, is arresting our people, forcing them to move to the south or be concentrated in one place in western part [redacted]

Hanoi. 18 May. We are all ready to fight and defend our country. On 5 April at 1040 hours we heard the alarm whistle. We stopped work and with guns in our hands ran toward the trenches and waited for the iron birds to come so we could blow their heads off. That day they were only 40 miles to the southwest, but they did not dare come to Hanoi. From 3 February to 18 May the people of Nghe An, Quang Binh, and Thanh Hoa have shot down 286 U.S. jet fighters and bombers. We have no fear of their planes. Our young pilots showed up on 3 April and on 3 and 4 April 57 planes were brought down in Thanh Hoa. A U.S. Lieutenant Colonel Shumaker parachuted and was taken prisoner. He expressed his concern regarding our anti-aircraft. He said that on a mission in a colony in Africa he and his men noticed that the people ran into trenches, so he thought our people would do the same. But on the contrary, our people have never been afraid to meet an aggressor. I believe we will not have to wait very long for reunification. The U.S. imperialists and their henchmen will surely be defeated.

Haiphong. 13 May. In general since the day the U.S. pirates started bombing and strafing we have suffered considerably. The home of our aunt was burned to the ground by napalm, but no one was injured.

~~TOP SECRET DINH~~CAPT QUINKE
YR2 SALERNO

0400 18 June - 0600 19 June

(b) (1)
(b) (3)

Haiphong. 5 May. It has been one week since I returned to serve in the army. My post is not far from my home. Our nation is in a most dangerous situation. Our women now have three responsibilities in order to enable their husbands or sons to answer the call of the nation. Young men are there ready to destroy the enemy and restore peace. This is the most sacred responsibility of youth.

Nam Dinh. 14 May. I now feel it is hopeless to wish for the resumption of repatriation. It is the fault of the U.S. imperialists who have brought sorrow and suffering to our people in the south and the north. The situation in the north is now tense. I have hatred in my heart against the aggressor and try my best to serve and produce to contribute to the fight for the liberation of South Vietnam. I have submitted my application to join the army. I want to join other patriots. We have a common hatred and determination to destroy the American aggressor. Have patience regarding repatriation, it will come sooner or later.

Nghé An, Dong Son. 3 May. The U.S. imperialists have cruelly attacked us and they may even get tougher, but whenever they come they always meet shameful defeat. We have suffered also, but not so much. Thanks to the far sighted leadership of the party and government, strategic places have been evacuated so that there is security for life and property. When the enemy approaches, an alarm whistle is blown and we rush into the trenches. When the planes go away we resume production without delay. This has become a daily rule. With the progress of the liberation army in the south and the internal confusion and disorder of the enemy we believe that reunification will be realized soon. We have a powerful army in the north, we shoot precisely and we follow the enemy actions very closely. The enemy will not be able to survive.
